Gamma Irradiation of Lyophilized Trypsin In the Absence of Ascorbate

Gamma Irradiation of Lyophilized Trypsin In the
Presence of 100 mM Ascorbate

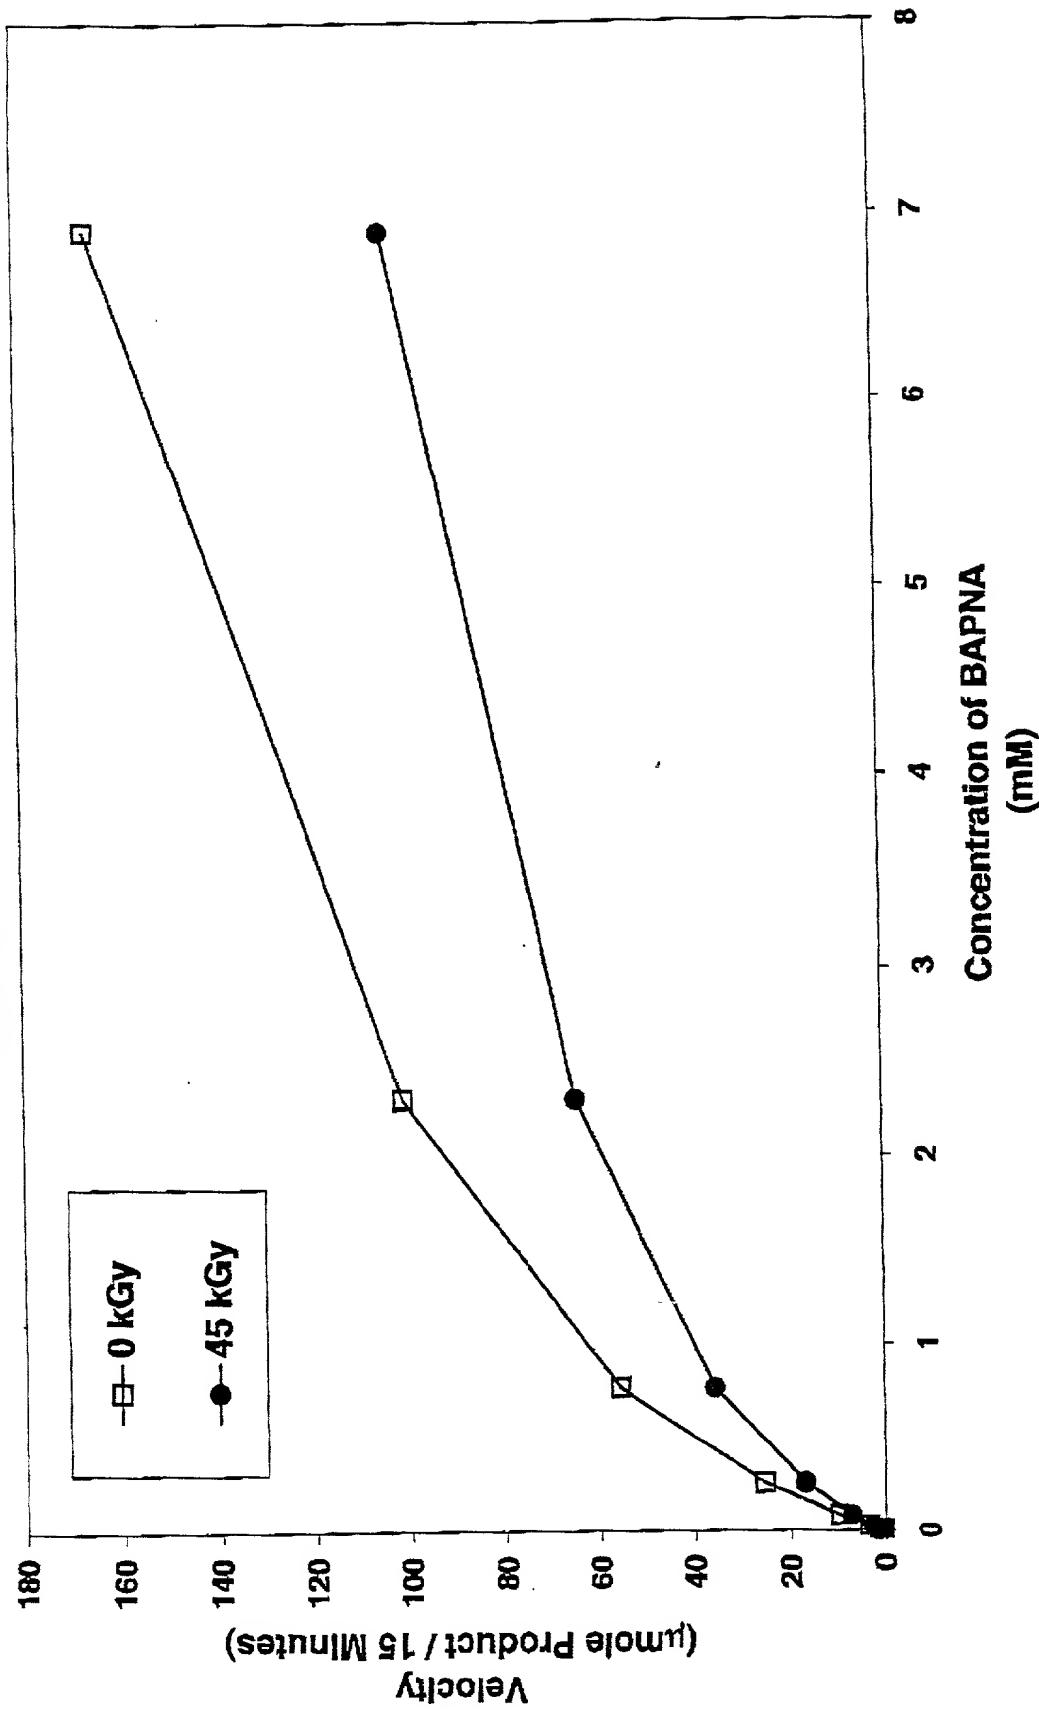

Gamma Irradiation of Two Forms of Trypsin In the Presence of 200 mM Ascorbate

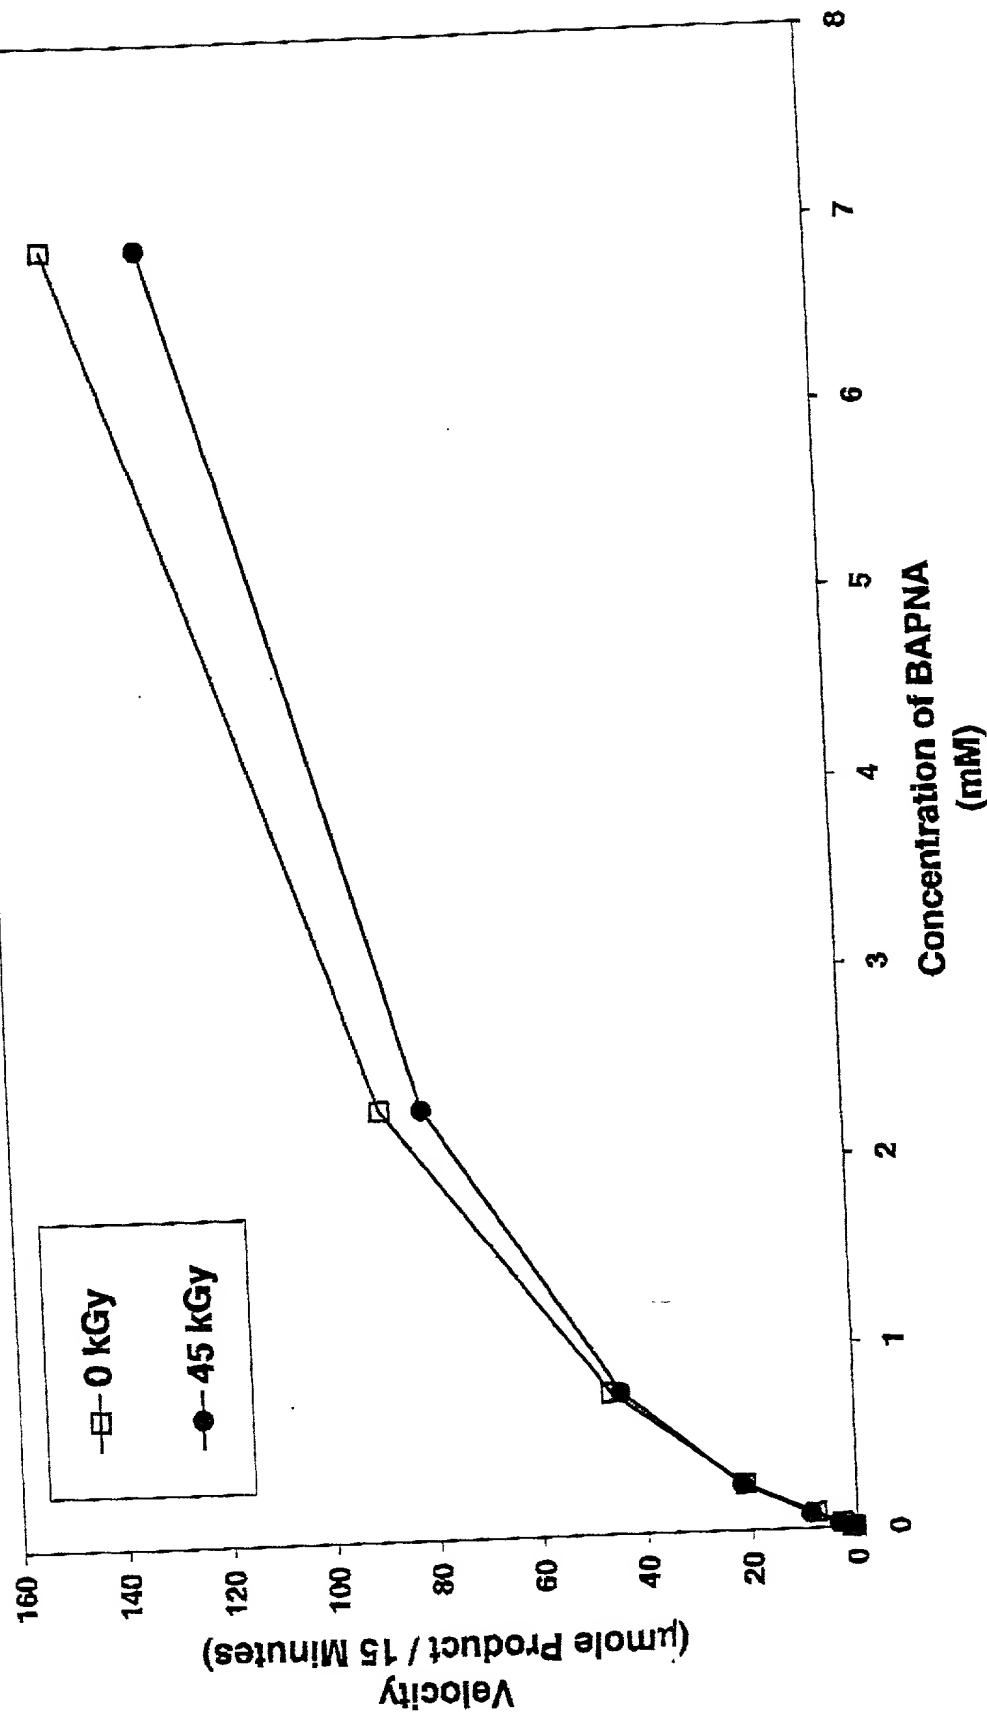

3A

Gamma Irradiation of Lyophilized Trypsin In the
Absence of Ascorbate

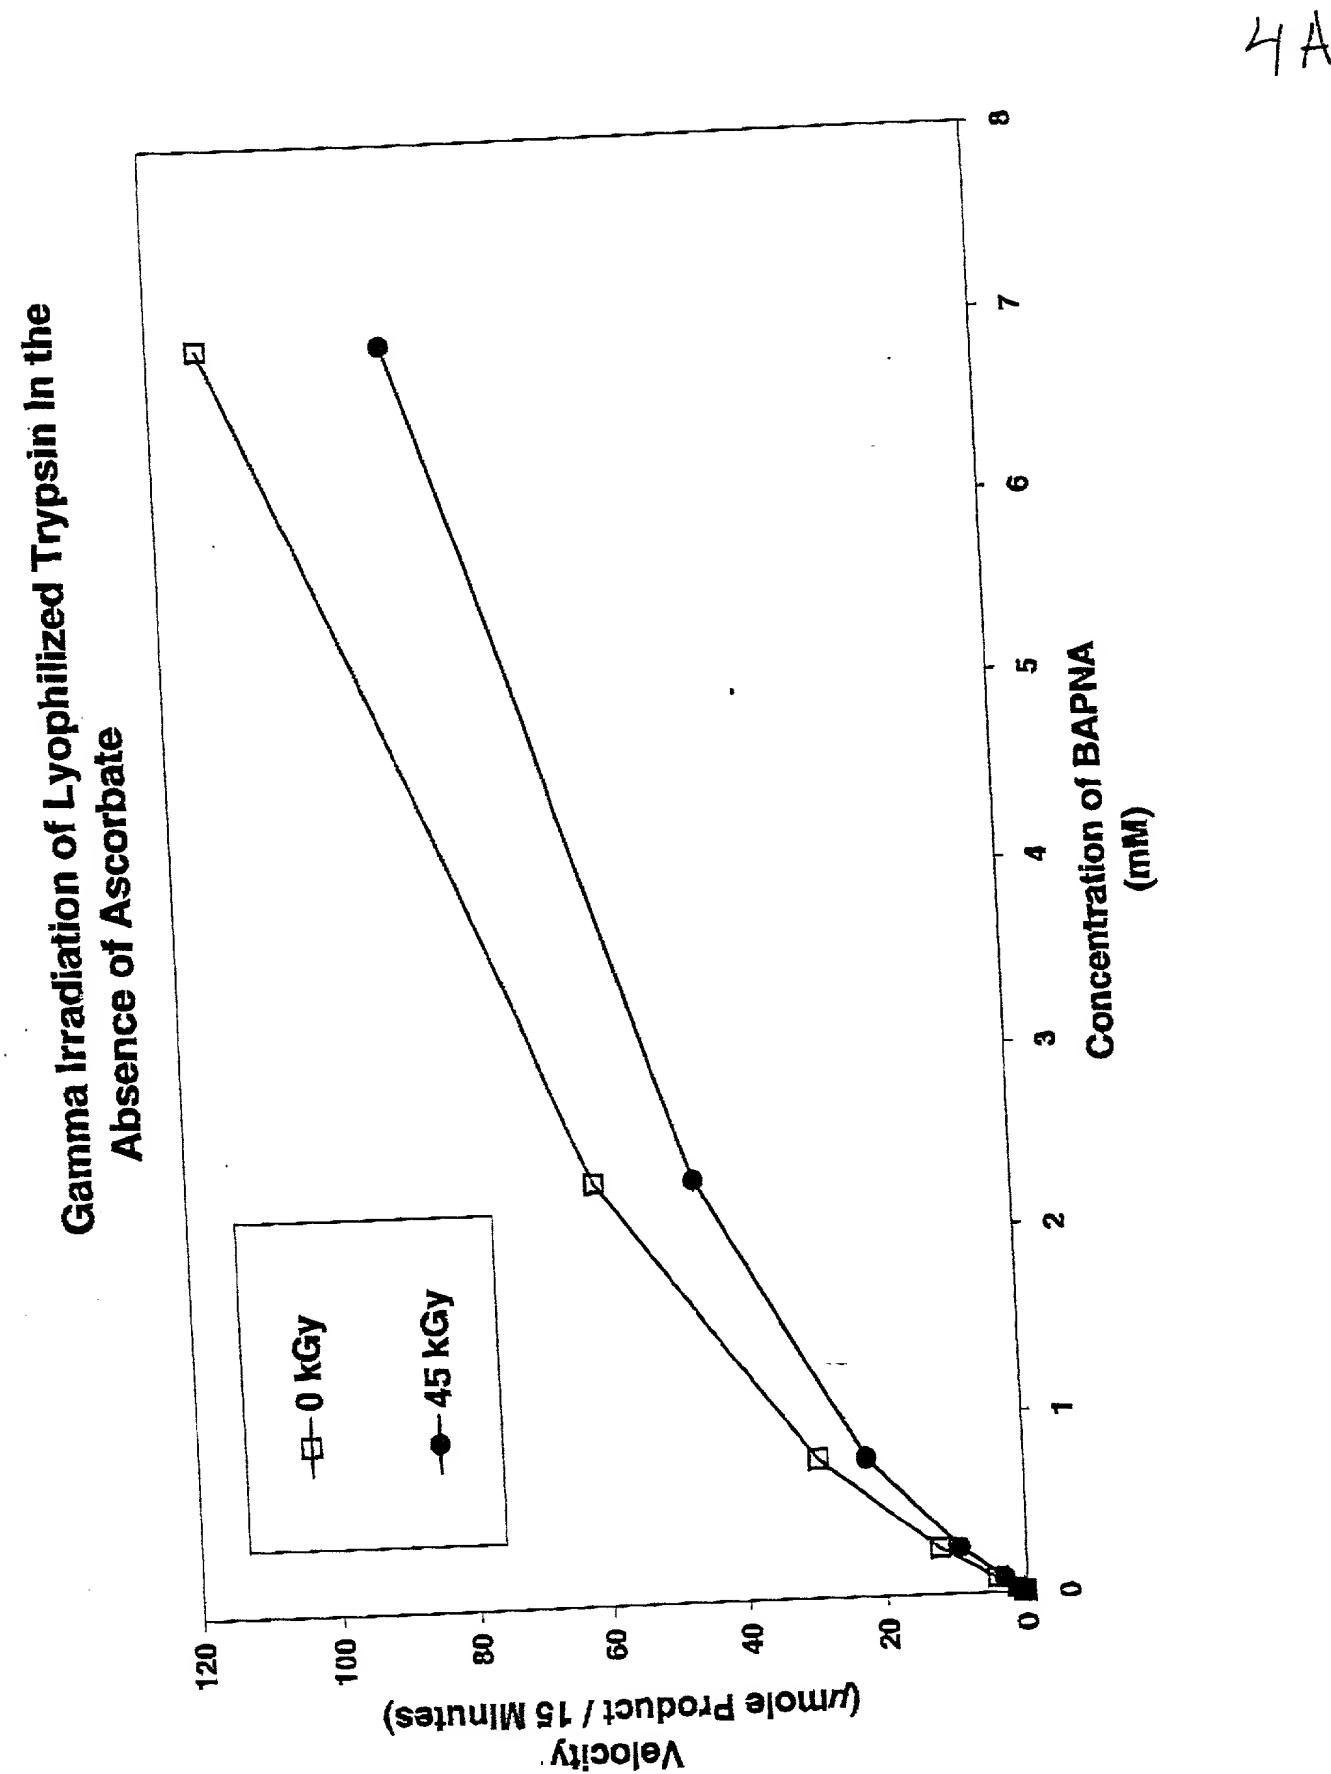

Gamma Irradiation of Lyophilized Trypsin In the
Presence of 200 mM Ascorbate

Gamma Irradiation of Lyophilized Trypsin In the
Presence of 100 mM Ascorbate

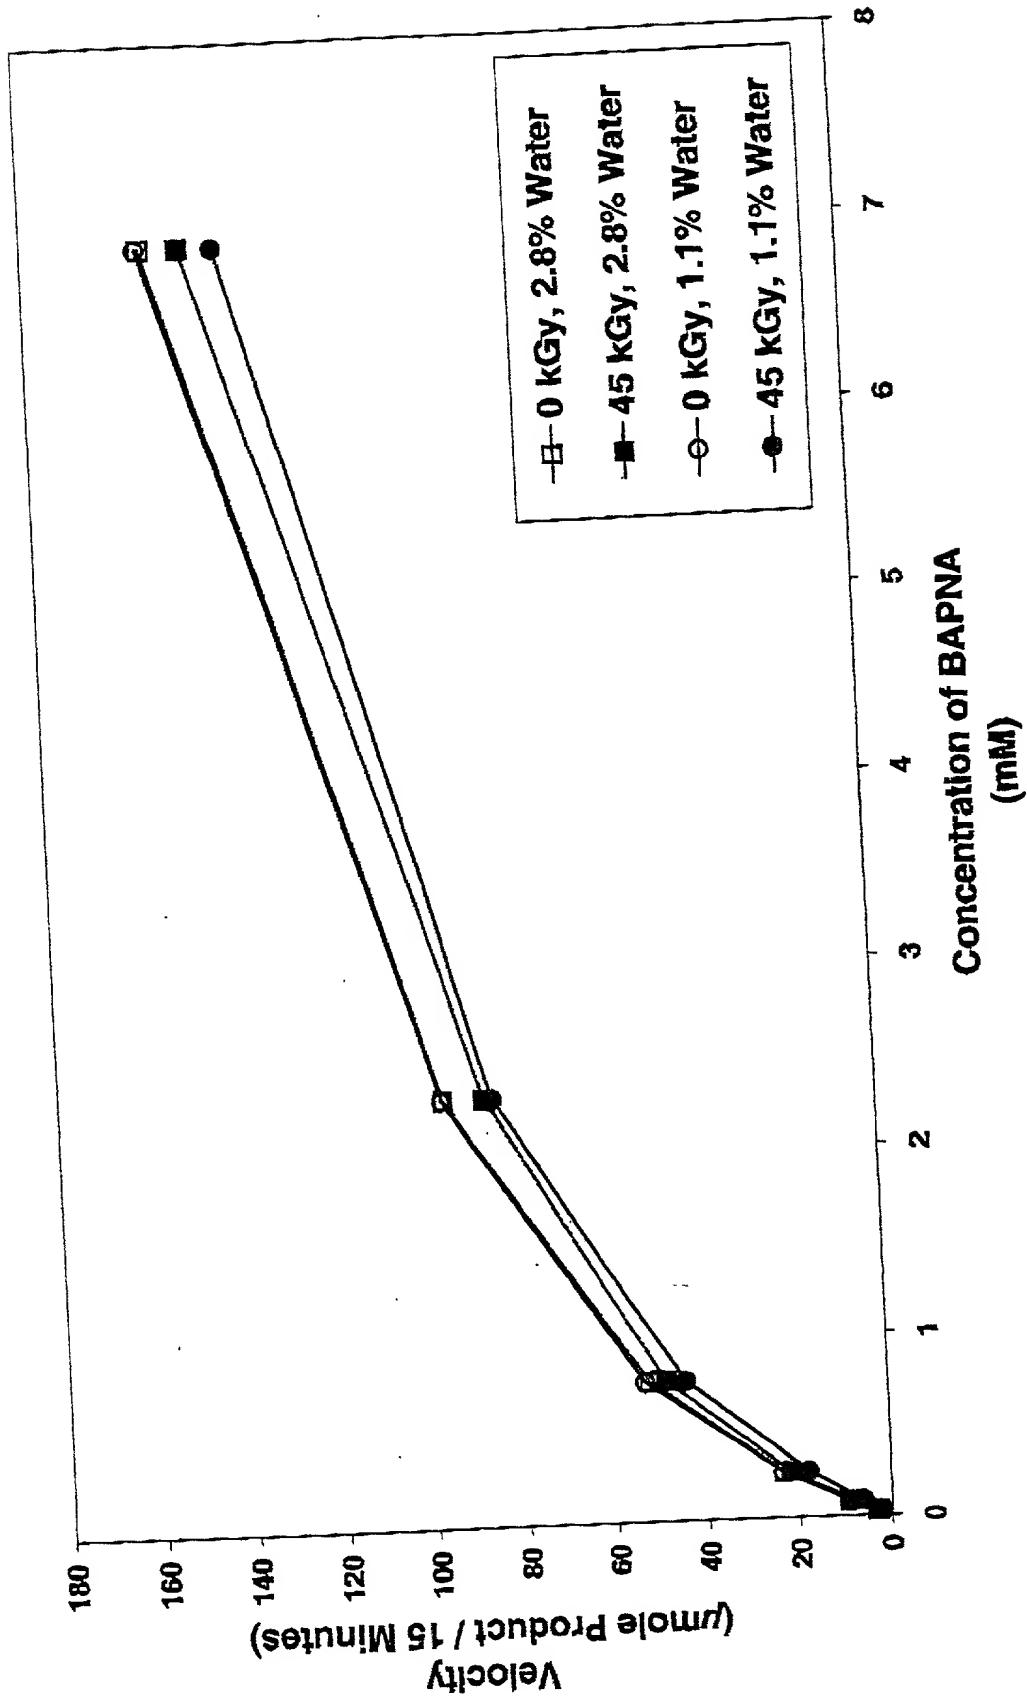

Gamma Irradiation of Lyophilized Trypsin In the
Absence of Ascorbate

SA

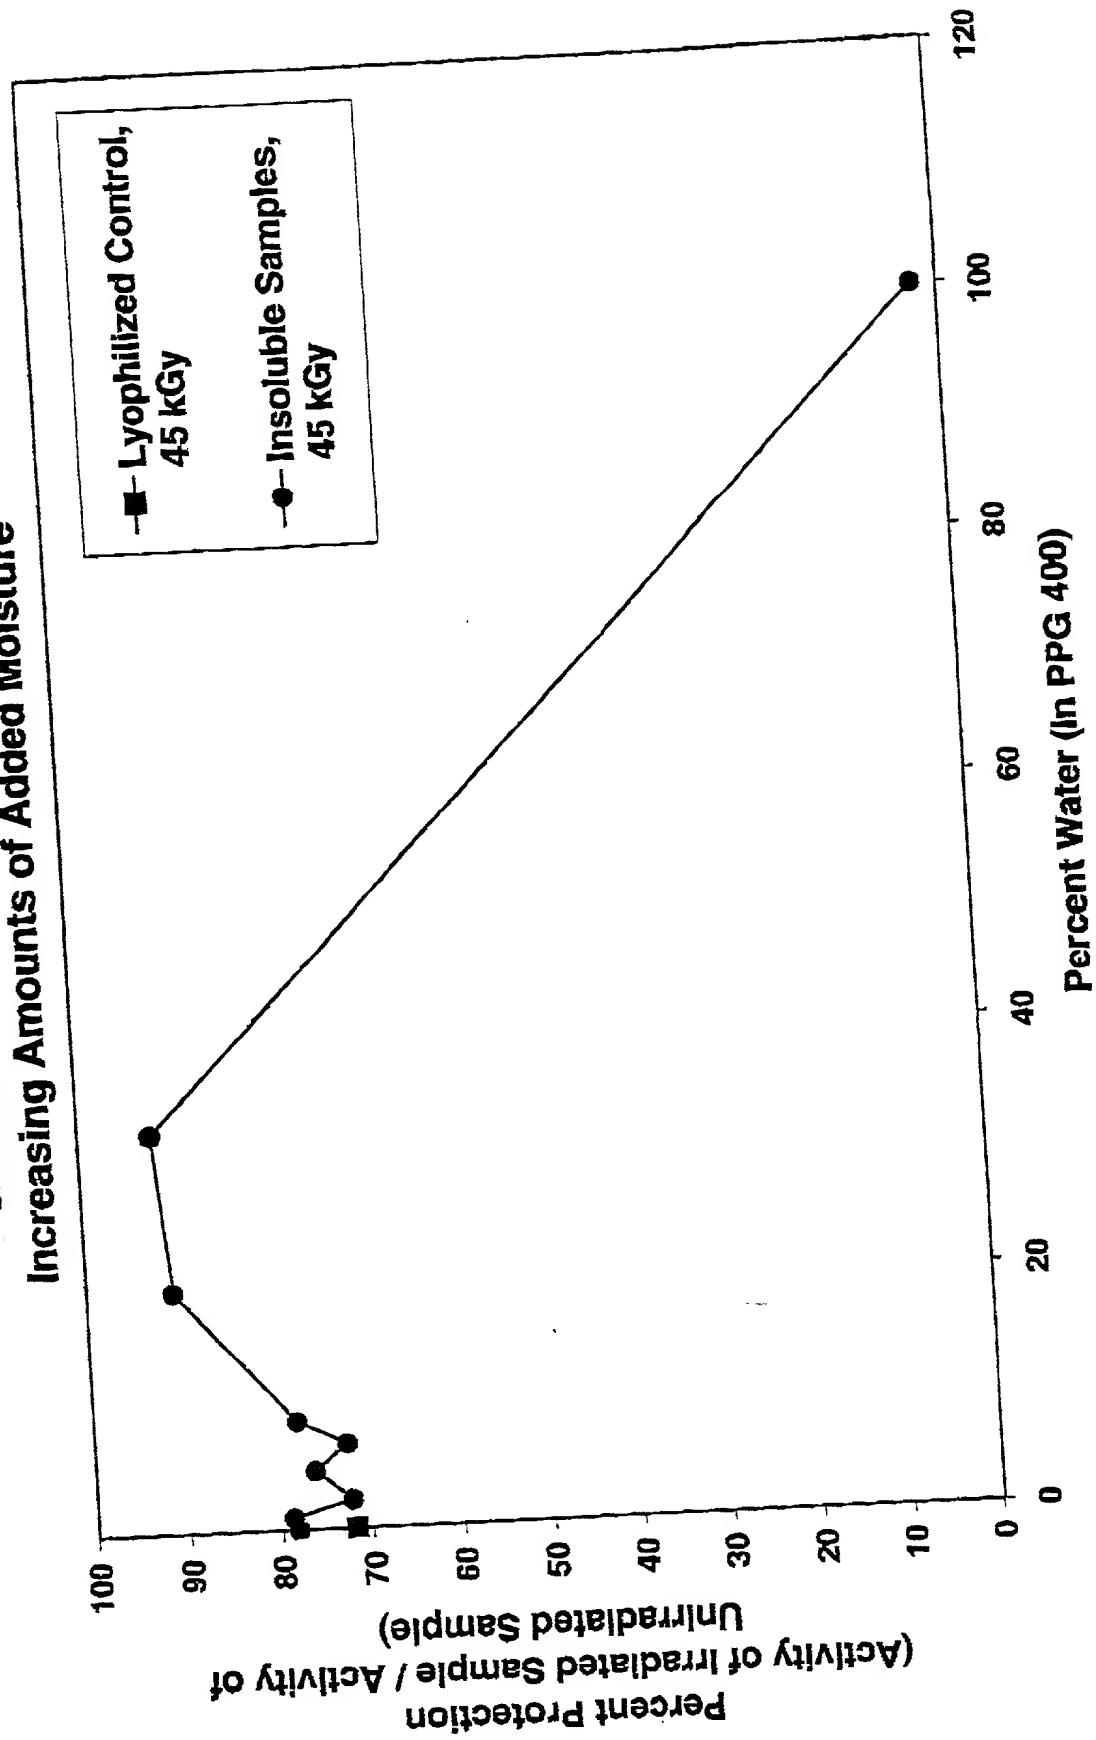

5B

Gamma Irradiation of Lyophilized Trypsin In the Presence of 100 mM Ascorbate

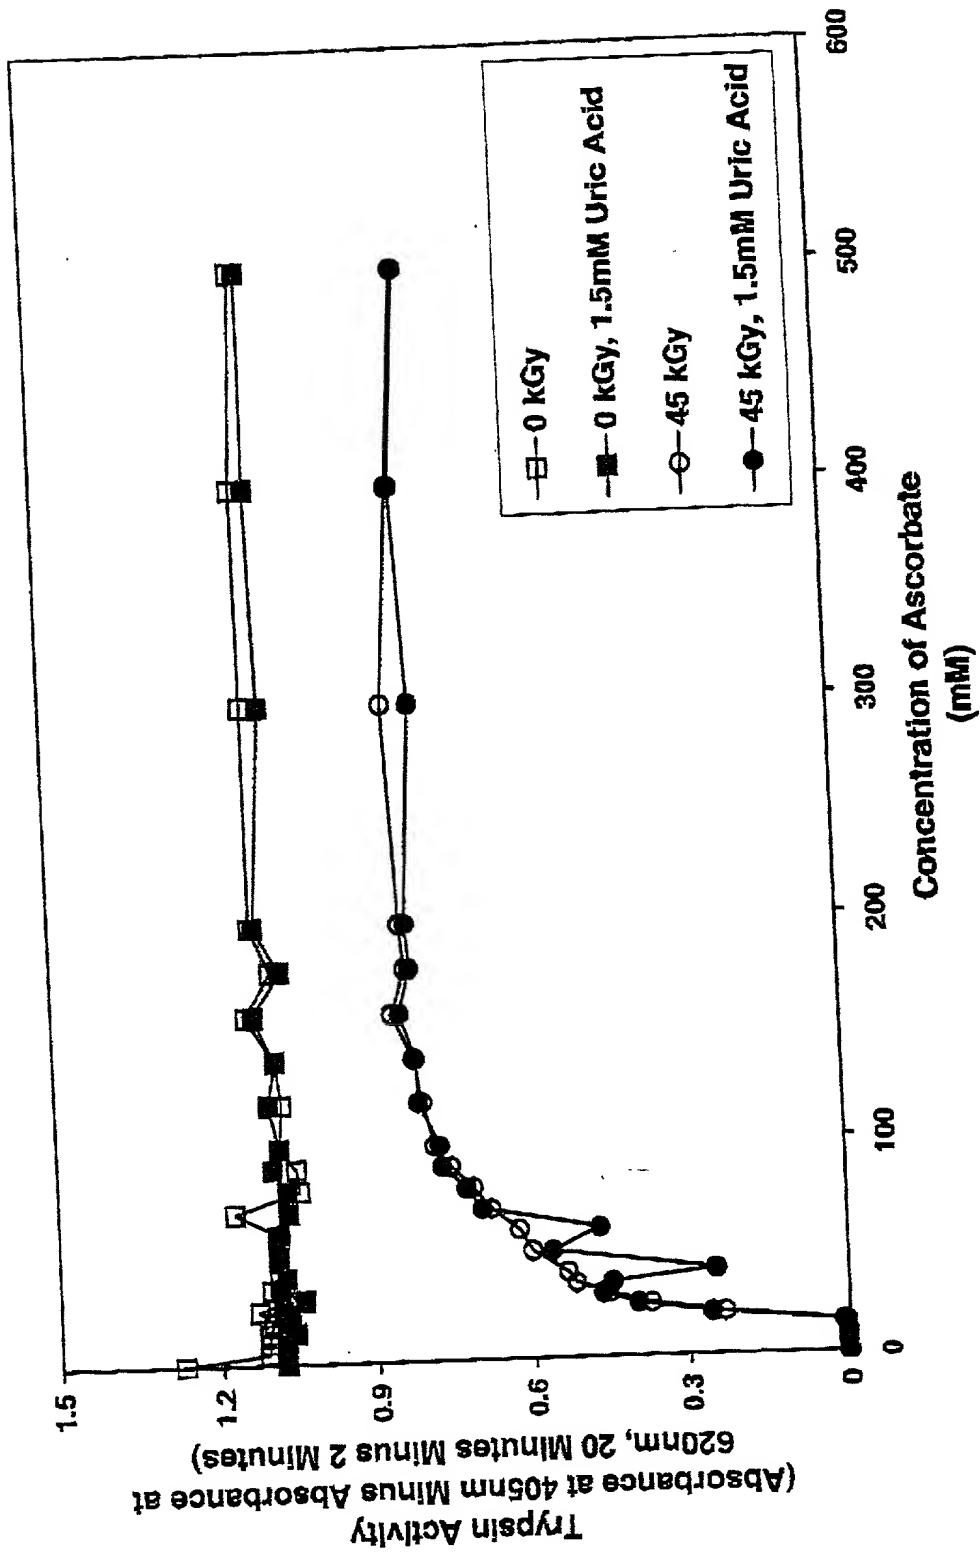

6

Gamma Irradiation of Trypsin In the Presence of Increasing Amounts of Added Moisture

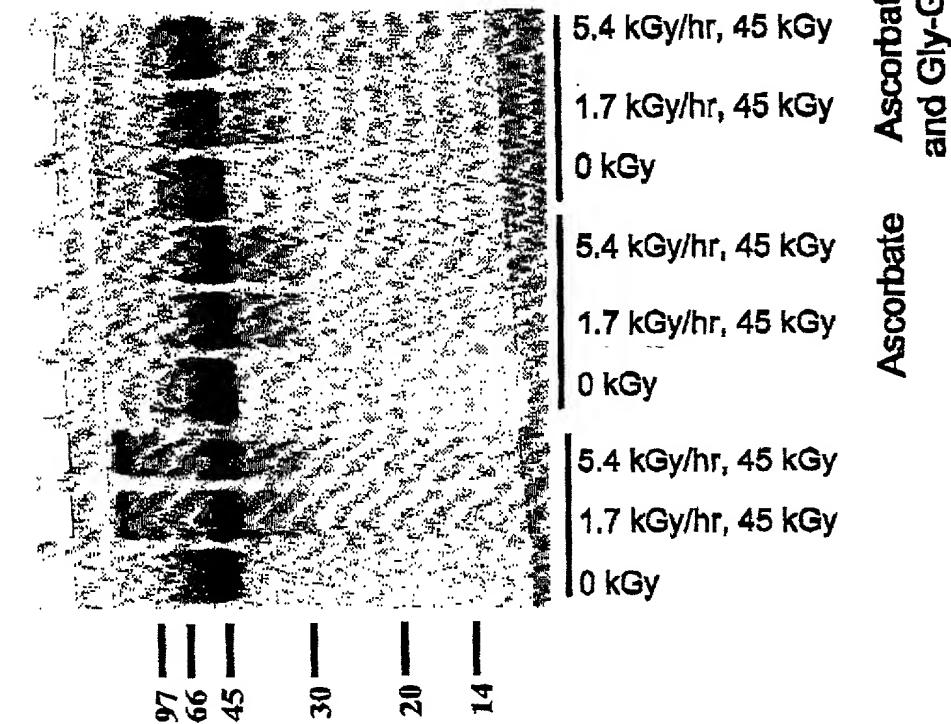

7

Gamma Irradiation of Liquid Trypsin In The Presence of Increasing Concentrations of Ascorbate

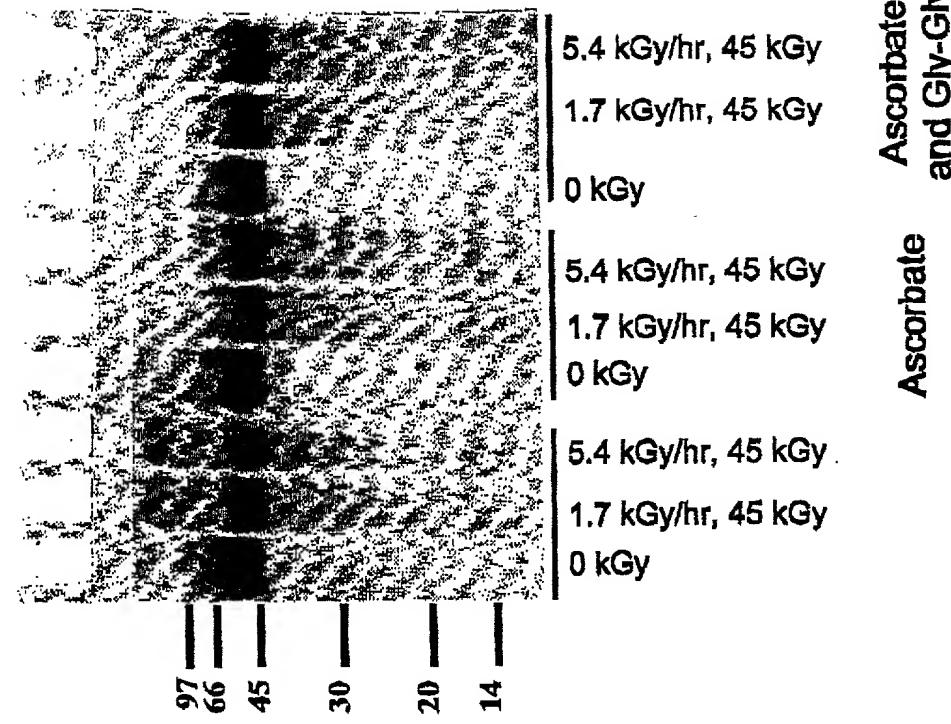

SDS-PAGE for a Glycosidase

Nonreduced

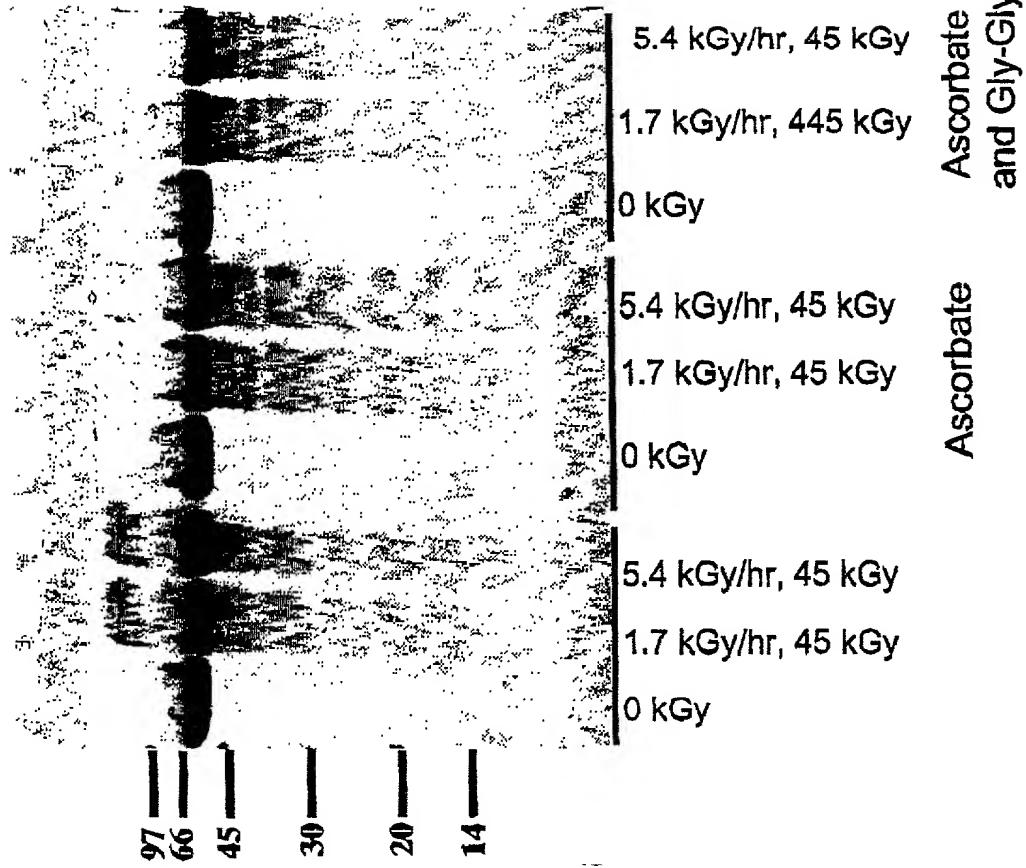

Reduced

8A

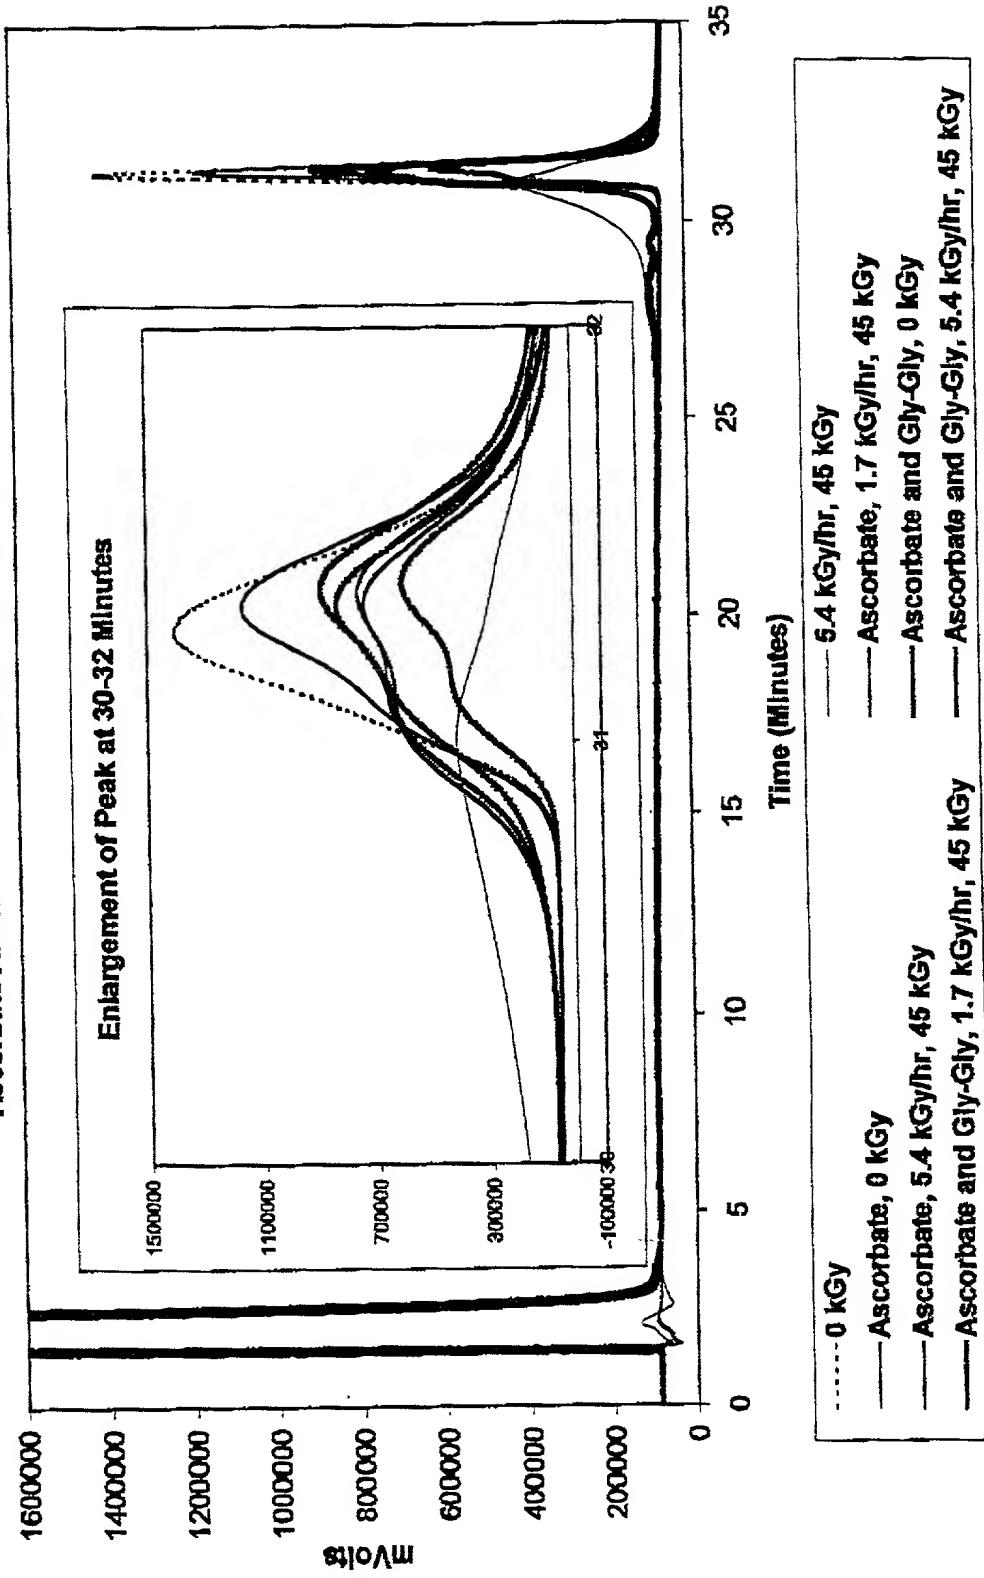

SDS-PAGE for a Sulfatase

Reduced

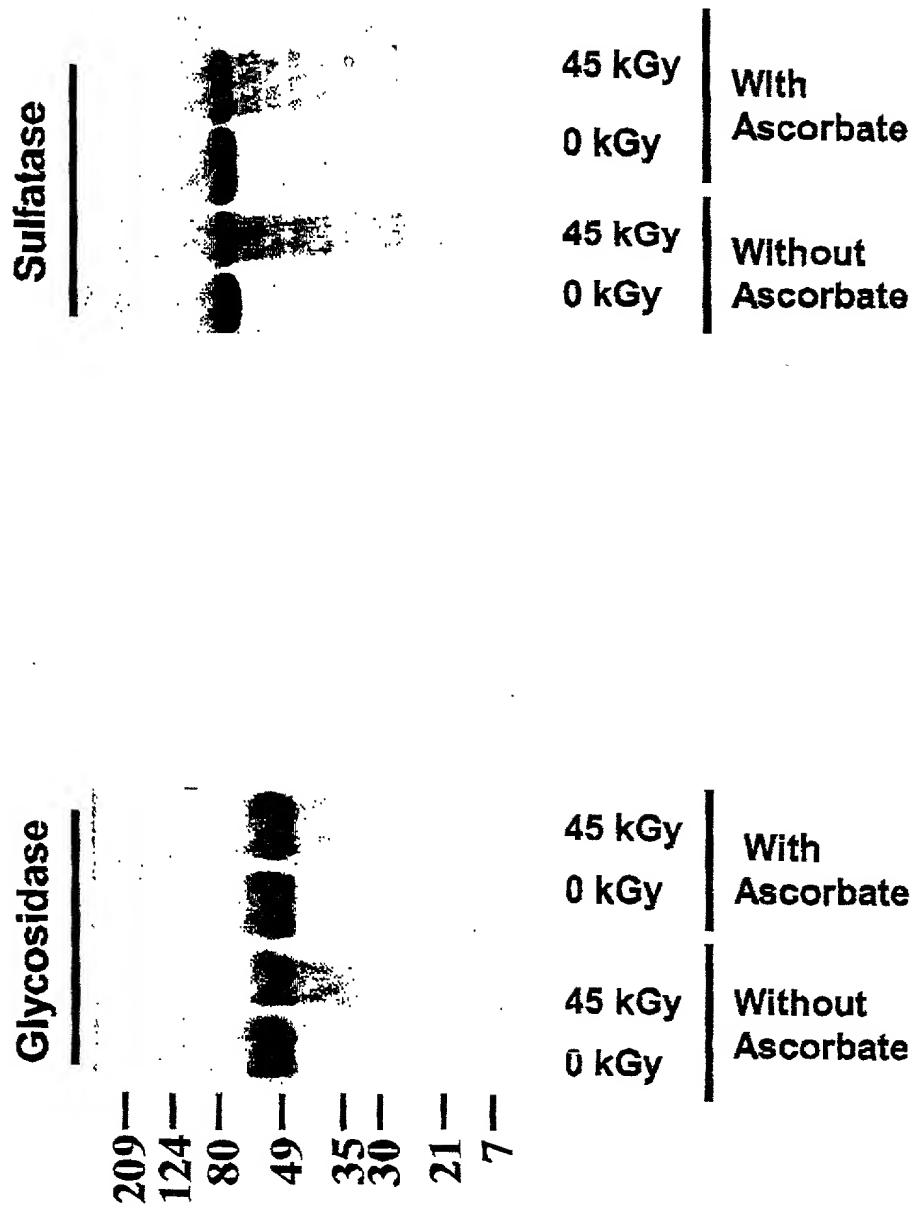

SB

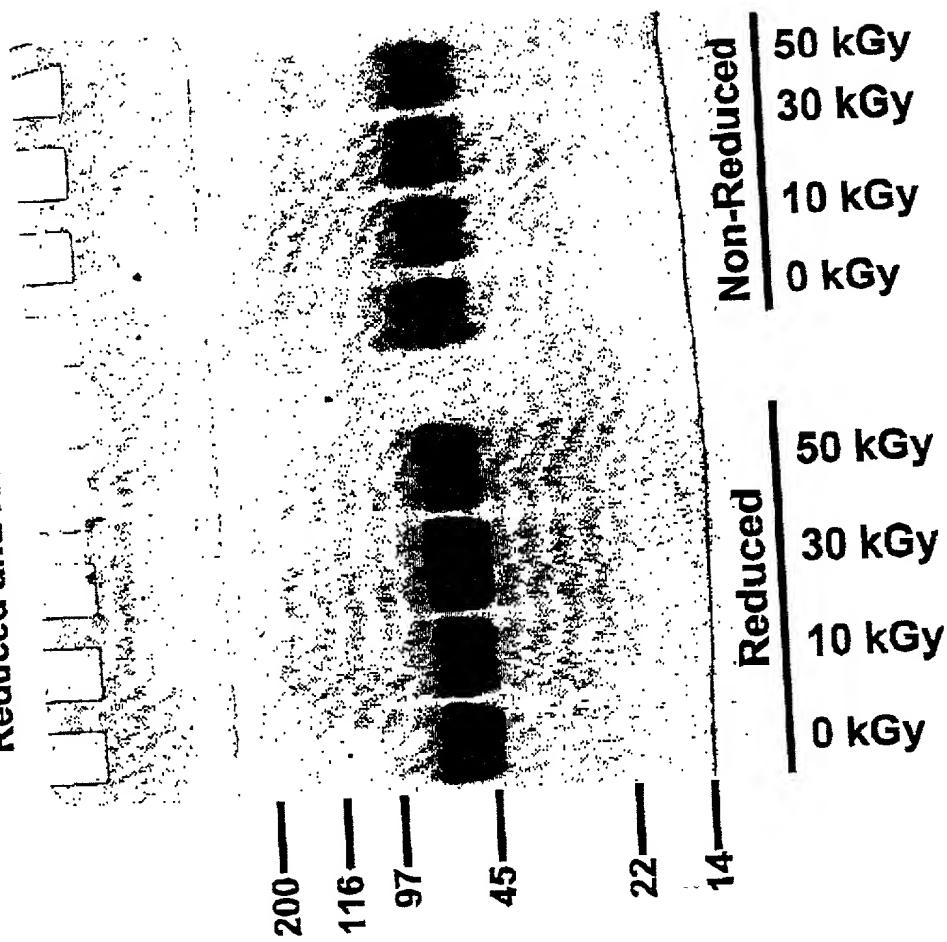

Gamma Irradiation of a Glycosidase In the Presence or Absence of
Ascorbate Alone or in Combination with Gly-Gly

Gamma Irradiation of a Lyophilized Glycosidase and Sulfatase In the Absence and Presence of 100mM Ascorbate

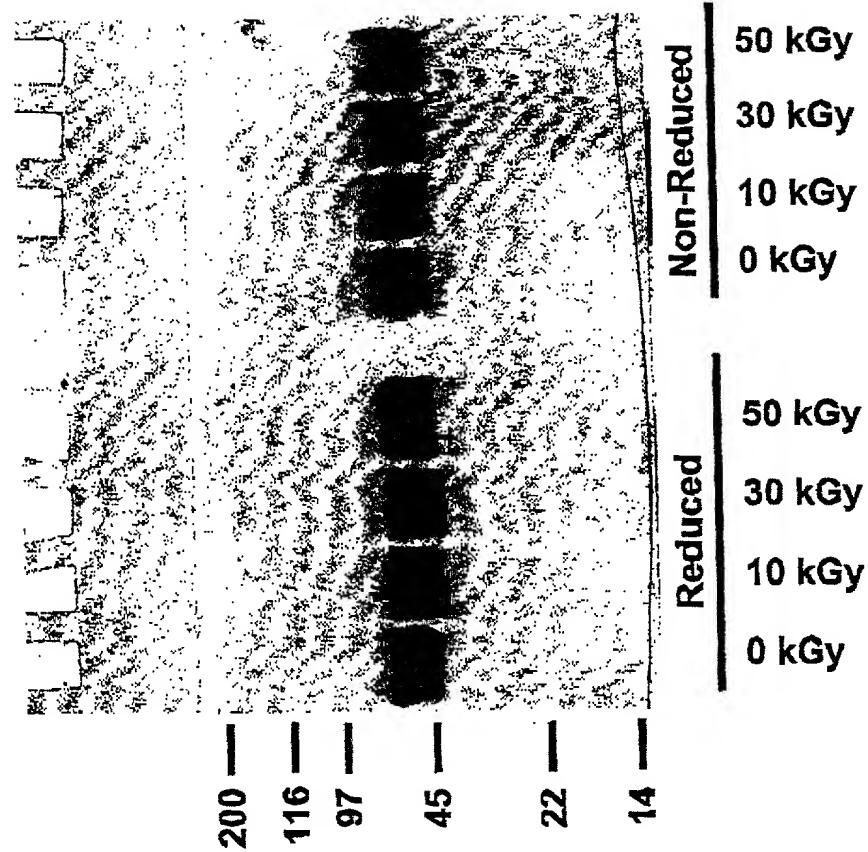

Gamma Irradiation of a Lyophilized Glycosidase
In the Absence of Stabilizers
Reduced and Non-Reduced, 10%
